Feb 20 (Entire Period is Feb 14 – March 4, 2021) Mercury leaves Retrograde at 11* Aquarius and conjoins Jupiter in Aquarius.

This period of time would be excellent for using an Affirmation to release intention for expanding good will, good fortune, ethical conversations, moral decisions, alignment with your highest expectations of how you desire to be, live, work – your standards and expectations for yourself or family, or business and children.

A conjunction releases the combined qualities of both planets. They are both in the sign of Aquarius. Aquarius involves change. Upgrade. Reaching a better functioning, anything – improvement – Alchemy. Aquarius also includes our friends and community. Aquarius deals with science, technology, space or electronics. Cryptocurrency and freedom from being constrained and controlled.

This conjunction as Mercury appears to stop in the sky once more, turns around and moves forward in Aquarius, connecting to Jupiter the Source of Wisdom, the Sage can release any one of these beautiful qualities into the world, your world.

“ I AM calling into the physical, mental, emotional and spiritual atmosphere, the world all around me now, the greatest breakthroughs for advancement towards truth and rapid improvement everywhere. I call this into action in the form of _____ according to the highest blueprint of that divine mind. Release the love into my world to transform all things old and dusty into the renewed refreshed sparkling atoms and electrons taking form now.

Love increase and expand so that life can transform from the lesser to the greater, the gross to the divine. I thank you, am grateful and accept this done in full power, Amen.”

Release the Music, the Sacred Sounds into the atmosphere and keep on your lips throughout the day, your call, your prayer and invocation affirming transformation for this thing you believe would benefit self or others.
